WELCOME

The IASLC Staging Committee is pleased to provide these slides for public use. Slides are divided into sets according to topic and you are free to download and create your own presentations from individual slides or entire sets. We ask that you take notice of the captions provided in the catalogues for each slide that you use, as they provide important information. We also ask that the original journal citations and any copyright information provided remain on the slide.

All previously published figures are provided with permission from the Journal of Thoracic Oncology.

These documents may be occasionally revised and additional materials will be added to the catalogue.

Topics Available as of 01 October 2009:
